

APPENDIX G (Paragraph 79 of Report)

- (i) Survey of prices of books supplied by the
Armidale Christian Book Society to the
Committee

54

Survey Supplied by Armidale Christian Book Society

The Armidale Christian Book Society provided a survey of books from United Kingdom and United States publishers comparing their prices as purchased from book distributors in Australia with the prices of the same books if purchased direct from a United Kingdom or United States supplier. The Society stated that the data were chosen randomly and overseas prices converted at current exchange rates. According to the Society:

The figures show that, despite claims to the contrary . . . book distributors in this country are charging retailers a considerably higher price for books than can be obtained overseas by importation of editions legally available here. (The last column shows that it can cost up to 62% more to purchase a book locally.)

The survey appears on the following pages.

APPENDIX G (Paragraph 79 of Report)

(ii) Book price survey conducted by
Committee

The Committee's Book Price Survey

The Committee's survey principally covered recently published paper-back books for the general market which had been placed on sale in Canberra bookshops. All carried the recommended retail sale price in Australia and in one or more of the following countries, namely, Canada, the United Kingdom and the United States.

The overseas prices were converted to \$A at the exchange rate prevailing at the time the information was collected. The difficulty in making comparisons between this converted price and the Australian recommended retail price is that the exchange rate for the deregulated \$A may have been quite different at the time when the Australian recommended retail price was set.

As will be seen from the Table, the survey suggested that the average United Kingdom retail price was 11.16% lower than the average recommended Australian retail price, the average United States retail price 11.87% lower than the average Australian price and the average Canadian retail price 17.11% lower than the average Australian price. The Australian price, of course, includes the cost of freight and insurance as well as handling and distribution charges. Since books are intended to be sold at the same recommended retail price in Alice Springs as in Sydney, the price presumably carried an Australian average loading for internal freight and insurance charges.

COPYRIGHT LAW REVIEW COMMITTEE
BOOK PRICE SURVEY

Average U.K. book price: 3.30 = A\$8.20
(213 titles) . (Exch. rate: .4024 - 01/03/88)

Australian average price for same titles: \$9.23

Percentage difference: U.K. prices are 11.16% lower

Average U.S. book price: \$5.10 = A\$7.13
(54 titles) (Exch. rate: .7150 - 01/03/88)

Australian average price for same titles: \$8.09

Percentage difference: U.S. prices are 11.87% lower

Average Canadian book price: \$6.42 = A\$7.17
(108 titles) (Exch. rate: .8960 - 01/03/88)

Australian average price for same titles: \$8.65

Percentage difference: Canadian prices are 17.11% lower
